Groundworks

BT J4 Junction Boxes

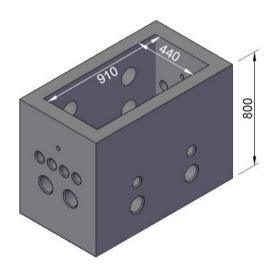

BT Boxes provide easy access for cable jointing and maintenance. This reinforced concrete unit eliminates the need for on-site building.

Benefits:

- Reinforced walls
- Polystyrene knock-out for variety of cable entry points
- 100mm walls to enable chamber wall height to be raised with blockwork
- 30mm diameter holes to facilitate lifting
- Weight of box is 620kg

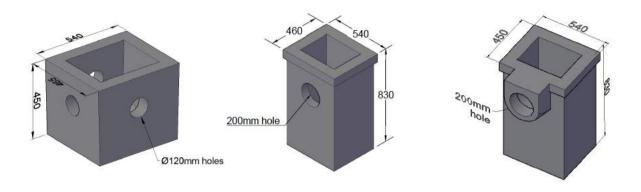

Road Gullies

Trapped gullies eliminate odours through the use of a water seal while untrapped gullies and silt boxes are used for collection of surface water.

Silt Boxes come with one hole tapped out, the remaining three can be tapped out if required.

C250 Grates are sold separately and suitable for use with all gullies.

"Moore Concrete are always very helpful, only very recently they went the extra mile for a large customer which is brilliant."

Julie Cox at Mole Valley Farmers Ltd, Devon.

Garden Kerbs

	Total Height	Bottom Width	Top Width	Base Height	Quantity per pallet	
6" x 2" Round Top Kerb	150	50	43	-	120	
6" x 2" Flat Top Kerb	150	50	43	-	120	
6" x 3" Flat Top Kerb	150	75	70	-	84	
9" x 2" Flat Top Kerb	225	52	50	-	40	
6" x 3" Splayed Kerb	150	75	40	70	84	
7" x 4" Splayed Kerb	175	100	55	80	40	
Kerbs are 915mm long						

We manufacture a range of kerbs for both garden and road use. These stylish kerbs come in different shapes to suit every taste and décor.

Garden Kerbs are not suitable for driving over with a vehicle.

6" x 2" Flat Top Kerbs

6" x 3" Flat Top Kerbs

6" x 2" Round Top Kerbs

6" x 3" Splayed Kerbs

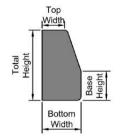

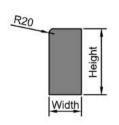

7" x 4" Splayed Kerbs

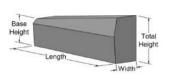

9" x 2" Flat Top Kerbs can be used to cast an in-situ step or for domestic use.

Road Kerbs

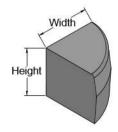

Suitable for roads, yards and gardens

Dwarf Walls

	Total Height	Bottom Width	Top Width	Base Height	Quantity per pallet	
10"	225	90	25	160	32	
15"	380	90	25	285	24	
18"	450	90	25	355	16	
24"	600	90	25	508	16	
30"	760	90	30	640	6	
Dwarf walls are 915mm long						

All dwarf walls are the same width to fit together for a seamless rise.

They can retain a small amount of earth.

Note: 30" dwarf wall has a different profile to the rest

Paving Flags

Height

2' x 2' Flag

Height

Anoth

Anoth

Branch

Product Type	Length	Width	Height	Quantity per pallet
2' x 2'	600	600	50	20
3' x 2'	900	600	50	20

Our grey flags create a soft appearance which is ideal for domestic and commercial use.

They are slightly dimpled for a non-slip finish.

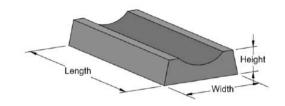

"Moore's have a great team and excellent products.

We're very satisfied with the service."

Alex Saul from Gibbs and Dandy, St Ives, Part of the Jewson Group.

Water Channels

Product Type	Length	Width	Height	Quantity per pallet	Depth of Dish
6" x 2" Water Channel	610	150	50	120	12
6" x 3" Water Channel	610	160	75	84	25
10" x 5" Pressed Water Channel	915	255	125	16	15

Water channels provide effective water management. They are suitable for both domestic and commercial use.

Cannot drive over

6" x 3" Water Channel

10" x 5" Pressed Water Channel

10" x 10" Slotted Drainage Channel

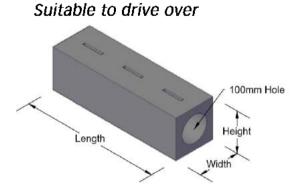

Drainage Channels

Product Type	Length	Width	Height	Quantity per pallet	
10" x 10" Slotted Drainage Channel	915	255	255	10	
Suitable for driving over					

Slotted drainage channels are suitable for pedestrian precincts, driveways, industrial areas and commercial developments with lorry traffic. Channels can be connected to our silt boxes by a plastic pipe.

"The Slotted Drainage Channels were perfect for what we needed, the quality was spot on. Moore Concrete are a great company and we'll definitely be making future purchases."

Ray Hinton from Hinton Electrical, purchasing for Yodel Depots in Wrexham and Leeds.

Graveyard Surrounds

Also known as graveyard subs, these simple fair faced concrete cuboids provide a tidy surround to a grave or a solid foundation for a marble surround.

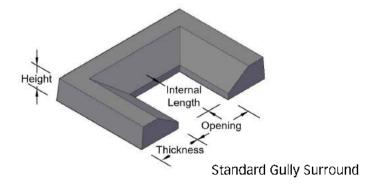

Length	Width	Depth		
1220	100	140		
2440	100	140		
2745	100	140		
Other lengths available to order				

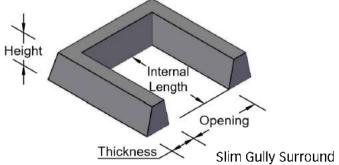

Gully Surrounds

Product Type	Thickness	Opening	Internal Length	Height
9" x 7" Slim	70	180	230	70
9" x 9" Slim	70	230	230	70
7" x 7" Standard	135	180	180	70
10" x 7" Standard	135	165	255	70

Concrete Gully Surrounds prevent silt from entering into a domestic drain.

Bull Nose Steps

The ideal solution for a front door step or a set of garden steps. The standard finish is attractive for any landscape. The bull nose is available on the front face and either the right or left hand side.

Product Type	Top Width	Bottom Width	Height			
Bull Nose Step	400	370	150			
Available in lengths up to 2m long						

"The quality of the products are never in question. We've always had good experiences working with Moore's and are very satisfied with the overall service."

Boundary Precast

Wall copings provide a stylish finish to all types of wall design. This high quality product deflects rain water away from the face of the wall, preventing discolouration.

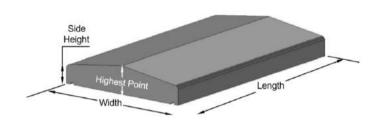

Saddleback Copings

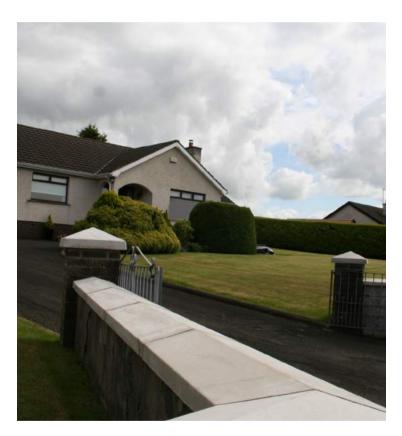

Saddleback Coping	Width	Highest Point	Side Height	Length	Quantity per pallet
6"	150	44	25	600	70
7"	180	65	44	915	60
9"	230	70	51	915	50
12"	305	76	51	915	32
13"	350	102	51	915	21
16"	405	102	64	1000	20
21"	520	117	75	1000	12
24"	600	130	100	600	4

Saddleback copings deflect water in two directions. They are most commonly used on boundary walls.

Flat Top Copings

Flat Top Copings	Width	Length	Depth
6"	150	610	45

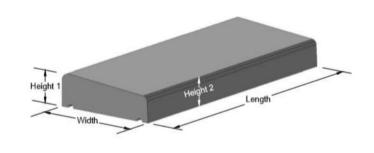

Featheredge Copings

Featheredge Coping	Width	Height (1)	Height(2)	Quantity per pallet		
9"	230	60	45	50		
13"	330	64	51	30		
16"	400	102	64	16		
18"	465	102	51	16		
21"	525	100	50	16		
24"	610	102	51	16		
All featheredge copings are 915mm long						

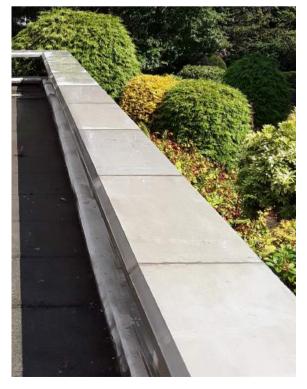

Featheredge copings provide a modern finish. They can be used as a parapet coping on a roof to direct water in one direction.

Bespoke Copings

Bespoke copings can be made to customer requirements. Bespoke product examples include chamfered edged and humpback. Please contact the building team for special requests.

Bespoke lengths available to order

Fence Posts for Wire		
1980 (6'6)	125 x 125	6
Corner strainer posts and struts available		

Key Benefits

- Robust, durable option for fencing projects
- Low maintenance solution—doesn't require treating or staining
- Not susceptible to the affects of moisture meaning no risk of ground rot
- · Uniform finish along the fencing line
- Holes are preformed so no need for drilling

"We have a very close working relationship with Moore Concrete, they are a professional company who are a pleasure to work with. Their name is continually improving in the GB market."

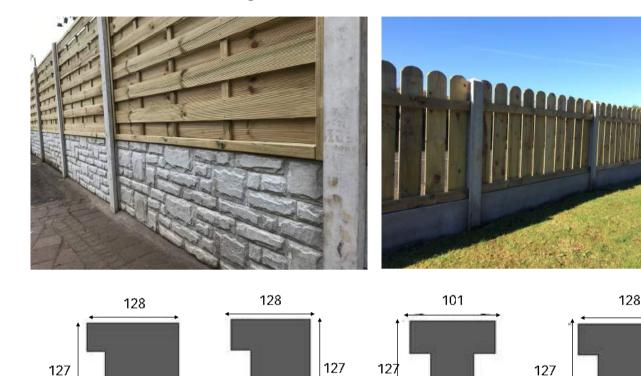

Dianne Harrison from MJ Harrison Supplies, Ayrshire, Scotland.

QuikFence

Corner Post

These posts are slotted to accommodate concrete gravel boards and/or timber fencing with no drilling or bolting required. They have a maximum height up to 3800mm.

Gravel boards are 1830mm long x 300mm wide x 40mm thick with 50mm thick ends.

End Post

Intermediate Post

Fast Drying Concrete Post Mix

This fast drying product has a 5—10 minute setting time at 20°C. Once set the mix can be covered with earth, grass or decorative aggregate as required. It is available in 20kg bags.

Three Way Post

QuikBloc

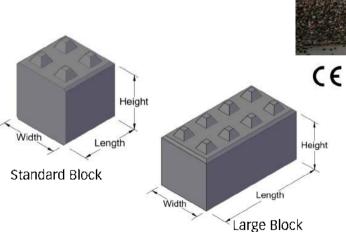

QuikBloc is a lego style block and is ideal for both temporary and permanent structures. The interlocking blocks create a strong structure with no need for bonding or fixing. Installation is fast and simple as the blocks are manoeuvred using the lifting eye cast into the top of each block. This means that the blocks can be removed or relocated at any time.

Uses include

- Storage Bays
- Security Perimeters
- Scaffolding
- Earth Retention
- Partition Walls
- Material Segregation
- Coastal Defence

Suitable for the storage of bulk materials including

- Aggregate
- Grain
- Road Salt / Grit
- Root Vegetables
- Recyclables / Waste
- Fertiliser
- Woodchip / Pellets
- Coal.

Product Type	L x W x H (mm)	Weight (kg)
Full Block (Standard)	1400 x 700 x 700	1600
Half Block (Standard)	700 x 700 x 700	800
Full Block (Large)	1600 x 800 x 800	2350
Half Block (Large)	800 x 800 x 800	1175

"QuikBloc from Moore Concrete has revolutionised our storage system. They create a stable storage solution that is resilient to machine damage. The simplicity of the system allows us to add bays as required improving both the efficiency and cost of storage of materials."

Luke McMullan from Quarrystore, Ballymena. www.quarrystore.co.uk

REDI+ROCK Freestanding walls

These versatile blocks can be used as

- Steps
- Columns
- Garden planters
- Wall seating

Benefits

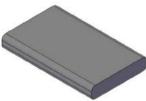

- Beautiful cobblestone finish
- Easy to design incorporating corners and curves
- Textured on 2 or 3 sides as required
- Dry laid, making them quick and easy to install, in any weather
- Easy to dismantle and reposition
- Minimal maintenance required

Corner Sill

1m x 1m standard corner sill to suit:

- Single course standard sill
- 2 course standard sill
- 2 course 12" sill for cladding
- 2 course timber frame sill

Smaller lengths can be made to order

Other types of sills can be mitered on site to create corner sills

All our corner sills have a post hole

Did you know?

We have a house plan quotation service.

Our dedicated team will assist with quantifying the perfect products for your build.

Single Course

Two Course

The difference between single course or two course is the face height of the sill - this aesthetic feature can be decided upon by customer preference.

Brickwork

Blockwork (Render)

Sills are available with 100mm stools for brickwork.

Stonework on House

14" and 15" sills for stonework or cladding available to order.

Bay Sills

Sills can be made at 45 or 60 degrees to create the perfect bay.

Curved Sills

Curved sills can be made to order.
