

	Environmental Policy		Ref. No.	IMS 17
			Rev. No.	4
	Authorised By:	E Gilmore	Date:	03/04/2021

MOORE CONCRETE PRODUCTS LTD is committed to managing the impact that its operations have on the environment. Environmental protection and prevention of pollution are at the core of our business goals.

We will comply with relevant environmental legislation, industry codes of practice and all other relevant requirements.

We will provide for the publication of our environmental policy internally and externally.

ISO 14001 will be used as the basis for managing our environmental obligations and achieving internal environmental objectives and targets. These objectives will be communicated throughout the company in order to increase environmental awareness.

We will undertake sustained effort to continuously improve our policies, programmes and operations regarding environmental performance.

We will develop products and services which have minimal environmental impact and safely fulfil their intended use. Our considerations will include spillage prevention, waste management, minimal resource consumption, and the introduction of energy-efficient practices. Moore Concrete Products Ltd provides a framework for effective management of energy, demonstrating the company's long-term commitment to reducing energy consumption.

We will conduct and support assessment of the environmental impacts of new products and services before starting a new activity or project. We will also work with suppliers and contractors to minimise the impact of their operations on the environment.

We will measure our environmental performance by conducting regular environmental audits and assessments of compliance with this policy statement, legal and other relevant requirements.
