CONCRETE BARRIERS

Product Features & Benefits

Moore Concrete's Barriers offer a versatile solution for both permanent and temporary applications. Ideal for securing access points, blocking farm gateways and protecting sites. Designed with built-in forklift recesses, the barriers can be quickly and easily moved into place, allowing fast and efficient installation.

Product Applications

- Temporary road blocks
- Pedestrian Seating
- Protection of vacant sites
- Blocking farm gateways
- Channelling traffic
- Car park boundaries

The barrier has **2nr 250mm deep x 100mm** wide forklift recesses to facilitate easy handling. Can be painted upon request.

NOTE: The barriers shown are not suitable for use in highways
