4000 (13')*	1950	1000	3147

*Suitable for Silage

Features & Benefits

Storage - Offers an effective solution to the storage of silage, feedstuffs, coal, aggregates, waste material etc.

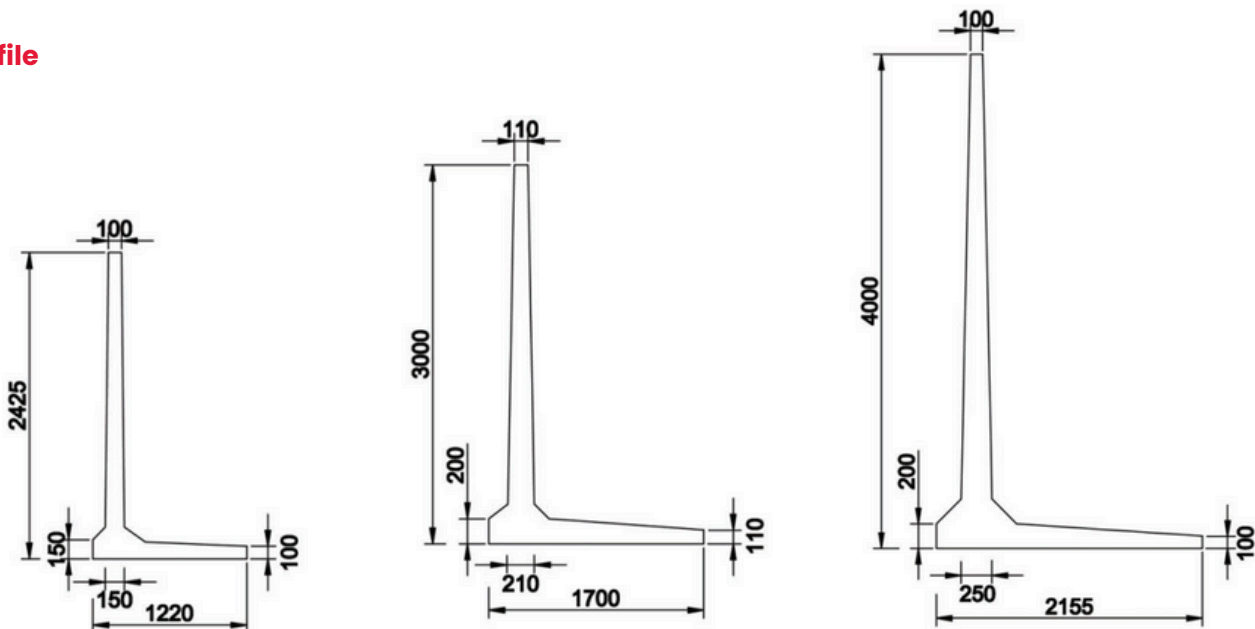

Versatility - Versatile storage capacity is a must for any business dealing with bulk materials. Each unit is load bearing in 2 directions. The units are ideal for dividing space into bays. They can easily be removed from one position and transported to another.

Speed Of Installation - Units are simple to position and the wall can be completed extremely quickly. Please refer to the **Handling Instructions** on our website for more details.

Optional

- Pull-out points can be fitted to facilitate easy access to the silage face.
- If required, joints between individual wall sections can be sealed by leaving a 10mm gap, backing with foam plastic cord, and sealing with polyurethane sealant.
- Corner units are also available.
- Walls also available at 5.0m and 6.0m high, more information available on request.
