## TRACTOR WEIGHTS

Available from **500kg** to **1500kg**

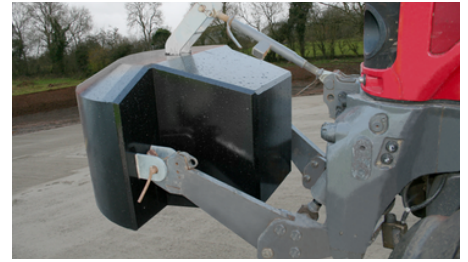

# TRACTOR WEIGHTS

## Product Features & Benefits

**Moore Concrete** offers two durable Concrete Tractor Weights, designed to provide optimal ballast for improved stability and safety. By increasing the effective weight on the front or rear axle, our weights enhance balance and control, reducing strain on your machinery. Built for durability and versatility, they provide a practical, long-lasting solution to meet the demands of modern farming.

## The Compact Tractor Weight

- The Compact Tractor Weight is available in –
  - 500kg
  - 750kg
  - 1000kg
  - 1250kg
  - 1500kg
- Suitable for the majority tractor models and category 0, 1, 2 & 3 linkages. Please note when using category 3 linkages, a category 2 mounting pin is required.
- Galvanised 3-point linkage frame including towing eye.
- Front or rear mounted.
- Compact design.
- Standard concrete finish or can be painted on request.

**1250kg Weight**

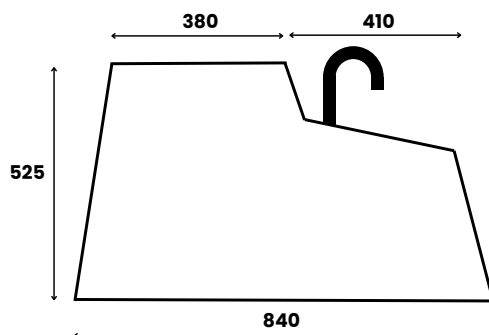

**Tractor Weight Coupling Arrangement**

## The Conventional Tractor Weight

The Conventional Tractor Weight is 790kg and can be easily hooked onto a bar (not included) between the rear lifting arms of the tractor.

**790kg Weight**
