

	Quality Policy				Ref: No	IMS 15
	Issued by	N Moore	Date	06/03/2026	Revision	6

Moore Concrete Products Ltd is dedicated to delivering a high-quality service in the manufacture, supply, and installation of concrete products, in accordance with applicable international standards and specific customer requirements.

Our Quality Policy is focused on fully meeting or exceeding customer expectations.

While pursuing this primary objective, we will also control, refine, and continually improve our processes, ensuring that all operations are conducted efficiently, effectively, and economically.

This Policy is the outcome of a structured planning process that establishes clear Quality Objectives designed to achieve our business aims for both customers and employees. These objectives will be agreed with those responsible for delivering them and will be supported by defined programmes. We will periodically review progress, adjusting our objectives and policy where necessary to ensure ongoing suitability and effectiveness.

We are committed to providing and managing the resources required to achieve our objectives, while ensuring safe and suitable working conditions for all employees and for members of the public who may be affected by our operations.

We will apply appropriate monitoring and measuring techniques to evaluate how well our services meet customer expectations and how effectively our internal processes are performing. The resulting information will be analysed and used to drive continual improvement across the business wherever possible.

Moore Concrete Products Ltd will comply with all statutory and regulatory requirements and is committed to the continuous improvement of our Quality Management System.

We will ensure that this Policy and its associated objectives are communicated to all employees and will demonstrate our commitment through active leadership, personal involvement, and accountability.

Signed 
Managing Director
